

January 29, 1974

PRESIDENT: We're debating the motion to bracket 513 on Final Reading. The Chair recognizes Senator Clark then Senator Skarda.

SENATOR CLARK: Mr. President and members, I'm sure if there is something wrong with the bill, if there is a question there is something wrong with the bill we'd be amiss at passing the bill, I'd think. I can't imagine any bill that a week is going to hurt it in any way, shape, or form and certainly it would hurt it if we would pass it and have the bill under wrong form. I can see nothing wrong in a whirl with holding a bill a week, because I'm going to vote against the bill if it comes up now because if there is question on it I don't want to be caught in it.

PRESIDENT: Senator Skarda.

SENATOR SKARDA: Mr. President, I think you can make a determination now. You got a question between the Chairman and the Committee, you got a question of the members of the committee. Senator Kennedy... He's out in the hall way...negotiating.

PRESIDENT: Send the Sergeant At Arms after Senator Kennedy, would you please. Senator Kennedy, Senator Skarda has a question for you.

SENATOR SKARDA: Would you have any objections of holding this bill up, say for ten minutes until we get this ironed out to the satisfaction to you and the members of your committee.

(End Belt #4)
